

Material Data Safety Sheet (MSDS)

This product information sheet must be used in conjunction with the Master MSDS.

Products -- ALUMINUM & MAGNESIUM ALLOYS

Neptune A, Neptune AAA, Neptune Tig, Neptune Mig, Neptune Tig M, Neptune G, Neptune GCF, Neptune M, Neptune S, & Neptune SS

Listed below are the maximum amounts of elements that may be in these products.

(note the listed amounts are the maximums, thus the list is more than 100%)

element	%	element	%
ALUMINUM	96.0	MAGNESIUM	90.0
ALUMINA		MAGNESIUM OXIDE	
ARSENIC		MANGANESE	1.0
BERYLLIUM		MERCURY	
BISMUTH		MOLYBDENUM	
BORON		NICKEL	
BORON OXIDE		PHOSPHORUS	
CADMIUM	30.0	SELENIUM	
CALCIUM		SILICON	6.0
CARBON		SILVER	
CHROMIUM		SULPHUR	
COBALT		TELLURIUM	
COLUMBIUM		TIN	40.0
COPPER	1.5	TITANIUM	1.0
INDIUM		TITANIUM OXIDE	
IRON	2.0	ZINC	30.0
IRON OXIDE		ZINC OXIDE	
LEAD		ZIRCONIUM	
LITHIUM			

COMMENTS:

Many of Rockmount's' products are considered proprietary products. Rockmount does not disclose the exact chemical composition under the "trade secrets" rules of OSHA. We will make this information available to a qualified medical professional if required.
