

Material Data Safety Sheet (MSDS)

This product information sheet must be used in conjunction with the Master MSDS.

Products -- **STAINLESS STEEL AND HIGH ALLOYS**

Gemini A, Gemini B, Gemini BBB, Gemini I, Gemini C, Gemini E, Brutus A, Brutus AAA, Brutus Flux Core, Apollo B, Brutus Tig, Gemini A Tig, Gemini B Tig, Gemini C Tig, Gemini E Tig, Brutus Mig, 316L Mig, Gemini B Flux Core, Gemini M Tig, Gemini M, Gemini 38 & Gemini 36.

Listed below are the maximum amounts of elements that may be in these products.

(note the listed amounts are the maximums, thus the list is more than 100%)

element	%	element	%
ALUMINUM	_____	MAGNESIUM	_____
ALUMINA	_____	MAGNESIUM OXIDE	_____
ARSENIC	_____	MANGANESE	4.0
BERYLLIUM	_____	MERCURY	_____
BISMUTH	_____	MOLYBDENUM	12.0
BORON	_____	NICKEL	60.0
BORON OXIDE	_____	PHOSPHORUS	.020
CADMIUM	_____	SELENIUM	_____
CALCIUM	_____	SILICON	2.0
CARBON	.25	SILVER	_____
CHROMIUM	35.0	SULPHUR	.040
COBALT	5.0	TELLURIUM	_____
COLUMBIUM	5.0	TIN	_____
COPPER	1.0	TITANIUM	_____
INDIUM	_____	TITANIUM OXIDE	_____
IRON	80.0	TUNGSTON	8.0
IRON OXIDE	_____	ZINC	_____
LEAD	_____	ZINC OXIDE	_____
LITHIUM	_____	ZIRCONIUM	_____

COMMENTS:

Many of Rockmount's' products are considered proprietary products. Rockmount does not disclose the exact chemical composition under the "trade secrets" rules of OSHA. We will make this information available to a qualified medical professional if required.
